Subject index

A

- Acetophenazine, comparison with perphenazine in schizophrenics (Overall et al.), 200
- Actinospectacin in urinary tract infections, evaluation (Vineyard, Mays, and Sanford), 622
- Activities, proposed aims, organization, and, of a division of clinical pharmacology (Carr), 587
- Addiction, drug, report. II. (The New York Academy of Medicine Committee on Public Health), 425
- to intravenous heroin, effects on patterns of physical activity in man (Fraser et al.), 188
- Addictiveness of methotrimeprazine, human pharmacology and (Fraser and Rosenberg), 596
- Additives, food, food degradation products, and related dietary factors, carcinogenesis associated with (Kraybill), 73
- Advances in pharmacology, recent (Robson and Stacey) (B. rev.), 281
- Agents, cardiovascular, index handbook (Welt) (B. rev.), 812
- Ajmaline in chronic atrial fibrillation, clinical pharmacologic observations of effects (Dick and McCawley), 315
- Alcohol accumulation in humans after prolonged drinking (Forney and Hughes), 619
- Aldosterone antagonists in medical management of ascites in cirrhosis of liver (Rivera et al.), 154
- Allergy, drug, skin tests for (Sherman) (Edit.), 701

January-February, pp. 1-148; March-April, pp. 149-292; May-June, pp. 293-422; July-August, pp. 423-568; September-October, pp. 569-700; November-December, pp. 701-838.

Allergy—Cont'd

- pharmacologic approach, mechanism of anaphylaxis, possible basis for (West), 749
- Amine oxidase inhibitor and serotonin, systemic and coronary hemodynamic effects (Rowe et al.), 467
- Amines, aromatic, azo dyes, and nitrosamines, carcinogenic, pharmacodynamics (Weisburger and Weisburger), 110
- Amphetamine, deanol, and choline, quantitative comparisons of electroencephalographic stimulant effects (Pfeiffer et al.), 461
- d-Amphetamine, benzphetamine, phenmetrazine, and placebo, comparison (Patel, Mock, and Hagans), 330
- Anabolic agent 7 α ,17 α -dimethyltestosterone (bolasterone), clinical evaluation (Korst et al.), 734
- Anaphylaxis, mechanism, possible basis for pharmacologic approach to allergy (West), 749
- Announcements, 140, 282, 415, 558, 696
- Anticholinergic drugs, gastrointestinal (Friend), 559
- Antihistamine drug, controlled trial with: prevention of Monday dyspnea in byssinosis (Bouhuys), 311
- Antihypertensive agent, new, mebutamate (Janney et al.), 720
- drugs, hypotensive effect (Grenfell, Briggs, and Holland), 162
- Anti-Parkinsonism drug therapy (Friend), 815
- Antipruritic drugs in normal volunteers, evaluation (Joglekar, Balwani, and Mutalik), 197
- Antitoxin, tetanus, comparison of value of 200,000 I.U. with 50,000 I.U. (Vakil et al.), 182

- Ascites in cirrhosis of liver, medical management (Díes et al.), 28
(Rivera et al.), 154
- Aspirin, influence of solubility on rate of gastrointestinal absorption (Leonards), 476
- Atrial fibrillation, chronic, clinical pharmacologic observations of effects of ajmaline (Dick and McCawley), 315
- Azo dyes, carcinogenic, aromatic amines, and nitrosamines, pharmacodynamics (Weisburger and Weisburger), 110

B

- Barbiturates and meprobamate, similarities and differences (Berger), 209
metabolism in man (Mark), 504
- Benzphetamine, phenmetrazine, d-amphetamine, and placebo, comparison (Patel, Mock, and Hagans), 330
- Beryllium compounds, toxicity (Tepper, Hardy, and Chamberlin) (B. rev.), 139
- Biochemical mechanisms (Ingraham) (B. rev.), 410
- Biosynthesis of proteins (Chantrenne) (B. rev.), 412
- Body fluids, kidneys and, physiology (Pitts) (B. rev.), 811
- Bolasterone, 7 α ,17 α -dimethyltestosterone, clinical evaluation of new anabolic agent (Korst et al.), 734
- Book reviews
- American drug index 1962 (Wilson and Jones), 280
 - American drug index 1963 (Wilson and Jones), 812
 - Annual review of pharmacology (Cutting), 810
 - Biochemical mechanisms (Ingraham), 410
 - The biosynthesis of proteins (Chantrenne), 412
 - The chromatography of steroids (Bush), 278
 - Circulation, handbook of physiology (Hamilton and Dow), 407
 - Clinical disorders of fluid and electrolyte metabolism (Maxwell and Kleeman), 279
 - The dreams of reason—science and utopias (Dubos), 407
 - Drug-induced diseases (Meyler and Peck), 280
 - The enzymes of lipid metabolism (Desnuelle), 410
 - Experimental chemotherapy (Schnitzer and Hawking), 810
 - Experimental neurology (Glees), 690

Book reviews—Cont'd

- Experimentation: an introduction to measurement theory and experiment design (Baird), 411
 - General pharmacology (Sicé), 409
 - Handbook of chemistry and physics (Hodgman), 412
 - Index-handbook of cardiovascular agents (Welt), 812
 - Introduction to pharmacology (Lewis), 689
 - Medical surveys and clinical trials (Witts), 689
 - A mirror up to medicine (Corcoran), 555
 - Modern drug encyclopedia and therapeutic index (Goodhart), 554
 - Pharmacogenetics. Heredity and the response to drugs (Kalow), 408
 - Pharmacopoea internationalis, 138
 - Physiological pharmacology (Root and Hoffman), 691
 - Physiology of the kidneys and body fluids (Pitts), 811
 - Practical therapeutics (Galbraith, Matthias, and King), 281
 - Quantification, a history of the meaning of measurement in the natural and social sciences (Woolf), 555
 - Readings in pharmacology (Shuster), 556
 - Recent advances in pharmacology (Robson and Stacey), 281
 - Statistical methods in clinical and preventive medicine (Hill), 557
 - Steroid drugs (Appelzweig), 279
 - Textbook of endocrinology (Williams), 138
 - Toxicity of beryllium compounds (Tepper, Hardy, and Chamberlin), 139
- Books received, 139, 413, 692, 813
- Byssinosis, prevention of Monday dyspnea in: controlled trial with antihistamine drug (Bouhuys), 311

C

- Carbon dioxide in depressed man, ethamivan and ventilatory response to (Rockwell and Greene), 728
- Carcinogenesis associated with foods, food additives, food degradation products, and related dietary factors (Kraybill), 73
chemical, symposium, 73, 88, 104, 110
concept of threshold in (Mantel), 104
- Carcinogenic azo dyes, aromatic amines, and nitrosamines, pharmacodynamics (Weisburger and Weisburger), 110
- Cardiopulmonary effects, human, of doxapram, respiratory stimulant (Wasserman and Richardson), 321

- Cardiovascular agents, index-handbook (Welt) (B. rev.), 812
- Centers, poison control: purpose and operation (Adams), 293
- Cephalothin, experimental and clinical studies (Herrell, Balows, and Becker), 709
- Chemical agents and drugs, hemolytic effects (Pranker), 334
- carcinogenesis, symposium, 73, 88, 104, 110
- Chemistry, host entry, and metabolic fate of carcinogens (Falk and Kotin), 88
- and physics, handbook (Hodgman) (B. rev.), 412
- Chemotherapy, experimental (Schnitzer and Hawking) (B. rev.), 810
- Choline, deanol, and amphetamine, quantitative comparisons of electroencephalographic stimulant effects (Pfeiffer et al.), 461
- Chromatography of steroids (Bush) (B. rev.), 278
- Chronic atrial fibrillation, clinical pharmacologic observations of effects of ajmaline in (Dick and McCawley), 315
- Circulation, handbook of physiology (Hamilton and Dow) (B. rev.), 407
- Cirrhosis of liver, ascites in, medical management (Díes et al.), 28
- (Rivera et al.), 154
- Clinical applications of sequential analysis, introductory review (Rümke), 531
- disorders of fluid and electrolyte metabolism (Maxwell and Kleeman) (B. rev.), 279
- effects and serum levels following acute doses of pentobarbital sodium in prolonged-action form compared with conventional capsules (Hollister, Kanter, and Clyde), 612
- evaluation of drugs, seminar, 255, 371, 531, 542
- of mebutamate (Janney et al.), 720
- of new anabolic agent 7 α ,17 α -dimethyltestosterone (bolasterone) (Korst et al.), 734
- pharmacologic observations of effects of ajmaline in chronic atrial fibrillation (Dick and McCawley), 315
- pharmacology, difficulties and opportunities in (Wilson), 255
- division of, proposed aims, organization, and activities (Carr), 587
- of hallucinogens (Jacobsen), 480
- limited, of nitrous oxide (Hamilton), 663
- protean control (Modell), 371
- of THAM [tris(hydroxymethyl)aminomethane] (Nahas), 784

- Clinical pharmacology—Cont'd
- and preventive medicine, statistical methods (Hill) (B. rev.), 557
- studies on cephalothin, experimental and (Herrell, Balows, and Becker), 709
- study, comparative, of methyclothiazide and pargyline in patients with essential hypertension (Patel et al.), 740
- trials, medical surveys and (Witts) (B. rev.), 689
- of hadacidin, preliminary, a new tumor-inhibitory substance (Ellison), 326
- Commentary on article, "The similarities and differences between meprobamate and barbiturates" (Domino), 231
- Compounds, orally administered, treatment of diabetes insipidus (Díes, Suárez, and Rivera), 602
- Computer-derived diagnostic models, demonstration of differential effects of acetophenazine and perphenazine in schizophrenics by (Overall et al.), 200
- Contrast media, radiodiagnostic, untoward reactions (Crocker and Vandam), 654
- Control centers, poison: purpose and operation (Adams), 293
- of clinical pharmacology, protean (Modell), 371
- Coronary and systemic effects of amine oxidase inhibitor and of serotonin (Rowe et al.), 467
- Correspondence, 414, 693

D

- Deanol, choline, and amphetamine, quantitative comparisons of electroencephalographic stimulant effects (Pfeiffer et al.), 461
- Degradation products of food, foods, food additives, and related dietary factors, carcinogenesis associated with (Kraybill), 73
- Detoxication mechanisms in man (Williams), 234
- Diabetes insipidus, treatment, with orally administered compounds (Díes, Suárez, and Rivera), 602
- Dietary factors, foods, food additives, food degradation products, and carcinogenesis associated with (Kraybill), 73
- Dihydro- β -erythroidine, effects in human volunteers of subparalytic doses (Murphree), 304
- 7 α ,17 α -dimethyltestosterone (bolasterone), clinical evaluation of new anabolic agent (Korst et al.), 734

- Diseases, drug-induced (Meyler and Peck) (B. rev.), 280
- Diseases of medical progress, present status (Moser)
- Acquired hemolytic anemia and antipenicillin antibody (Strumia and Raymond), 261
 - Agranulocytosis secondary to hydrochlorothiazide therapy (Chrein and Rubin), 684
 - Anaphylactic reactions to hydrocortisone (O'Garra), 401
 - Aplastic anemia secondary to gold salt therapy (McCarty), 549
 - Autoimmune hemolytic anemia with acute renal failure due to phenacetin and para-aminosalicylic acid (MacGibbon et al.), 394
 - Bone marrow depression resulting from administration of methicillin: with a comment on value of serum iron determination (McElfresh and Huang), 550
 - Cardiac toxicity of methylphenidate (Chernoff, Wallen, and Muller), 549
 - Cardiotoxic effects of antimony dimercaptosuccinate in schistosomiasis. With special reference to co-existent hepatic dysfunction (Wayne et al.), 806
 - Central scotoma following chloroquine therapy (Reed and Campbell), 548
 - Comparative study of chronic nonobstructive pyelonephritis and renal papillary necrosis (Bengtsson), 398
 - Demonstration by "challenge" or hepatic dysfunction associated with propionyl erythromycin ester lauryl sulfate (Robinson), 399
 - Editorial: Chronic pyelonephritis, chronic interstitial nephritis and phenacetin toxicity, 397
 - nephrotoxicity of analgesic abuse (Schreiner), 393
 - Erythrocyte survival time in patients abusing phenacetin, with or without renal insufficiency (Friis, Fogh, and Nissen), 394
 - Fatal aplastic anemia following use of potassium perchlorate in thyrotoxicosis (Krevans, Asper, and Rienhoff), 400
 - Fatality after oxyphenbutazone in Still's disease (Gaisford), 683
 - Fibrinolysis induced by pressor amines (Genton, Kern, and von Kaulla), 550
 - Greater curvature gastric ulcers in patients on long-term steroid therapy (Low), 684
 - Hazards of steroid treatment (Tegner), 401
 - Hematologic toxicity of a chloramphenicol analogue (Suhrland and Weisburger), 131
- Diseases of medical progress—Cont'd
- Hepatic dysfunction associated with triacetyleandomycin and propionyl erythromycin ester lauryl sulfate (Robinson), 262
 - necrosis associated with halothane anesthesia (Lindenbaum and Leifer), 805
 - Hypoglycemia coma during change from insulin to tolbutamide (Fine, McLean, and Rickards), 804
 - Hypoparathyroidism following radioactive iodine therapy for intractable angina pectoris (Townsend), 550
 - Interstitial nephritis due to chronic phenacetin poisoning (Lakey), 396
 - Jaundice of the newborn due to novobiocin (Hargreaves and Holton), 132
 - Letters to editor, polyneuritis after nitrofurantoin (Jordon), 806
 - therapy (Spencer), 805
 - Liver necrosis after halothane anesthesia. Cause or coincidence (Bunker and Blumenfeld), 806
 - Massive ovarian hyperstimulation with clomiphene citrate (Southam and Janovski), 130
 - Mechanism of reduction of erythrocyte lifetime in phenacetin habitués with renal impairment (Friis, Fogh, and Nissen), 395
 - On the nephrotoxicity of amphotericin B in man (Bell et al.), 399
 - Paresthesias during treatment with nitrofurantoin: report of case (Martin, Corbin, and Utz), 132
 - Peripheral neuropathy due to nitrofurantoin (Laughridge), 804
 - Phenacetin takers dead with renal failure: 27 men and 3 women (Nordenfelt and Ringertz), 395
 - Phenacetin-induced hemolysis in patients with chronic nephritis and phenacetin abuse (Lorenzen and Schwartz), 396
 - Photosensitivity, loosening of the nails, and discoloration of nails and teeth in association with demethylchlortetracycline (Declomycin) (de Veber), 548
 - Pure red cell anemia successfully treated with corticosteroids (Bergquist), 397
 - "Purple toes": an uncommon sequela of oral coumarin drug therapy (Fetter and Auerbach), 551
 - Recurrent pulmonary infiltration and pleural effusion due to nitrofurantoin sensitivity (Israel and Diamond), 130
 - Renal biopsy, clinical and pathological significance (Wolstenholme and Cameron), 396

Diseases of medical progress—Cont'd

- papillary necrosis after prolonged use of phenacetin (Joshi et al.), 398
- Reserpine-digitalis toxicity, cardiac arrhythmias during reserpine-digitalis therapy (Dick, McCawley, and Fisher), 132
- Severe and fatal reactions to sulfamethoxypyridazine (Melvin and O'Brien), 399
- Streptomycin-induced hemolytic anemia (Nachman, Javid, and Krauss), 400
- Toxic amblyopia due to chloramphenicol (Wilson), 262
- pheniprazine (Palmer), 685
- Treatment of hypercholesteremia (Parsons), 685
- Upper abdominal pain and intrahepatic cholestasis as manifestations of sensitivity to ilosone (Gittler), 683
- Diuretic drugs in medical management of ascites in cirrhosis of liver (Díes et al.), 28
- Doxapram, respiratory stimulant, human cardiopulmonary effects (Wasserman and Richardson), 321
- Drinking, prolonged, alcohol accumulation in humans after (Forney and Hughes), 619
- Drug addiction, report. II (The New York Academy of Medicine Committee on Public Health), 425
- allergy, skin tests for (Sherman) (Edit.), 701
- antihistamine, controlled trial with: prevention of Monday dyspnea in byssinosis (Bouhuys), 311
- detoxication in man (Williams), 234
- encyclopedia, modern, and therapeutic index (Goodhart) (B. rev.), 554
- index American, 1962 (Wilson and Jones) (B. rev.), 280
- 1963 (Wilson and Jones) (B. rev.), 812
- research, legal considerations (Smith), 704
- therapy, anti-Parkinsonism (Friend), 815
- and pregnancy (Friend), 699
- Drug-induced diseases (Meyler and Peck) (B. rev.), 280
- and naturally occurring (schizophrenic) psychotic states in human males, quantitative electroencephalographic analysis (Goldstein et al.), 10
- Drugs, antihypertensive, hypotensive effect (Grenfell, Briggs, and Holland), 162
- antipruritic, in normal volunteers, evaluation (Joglekar, Balwani, and Mutalik), 197
- and chemical agents, hemolytic effects (Prankerd), 334
- clinical evaluation, seminar, 255, 371, 531, 542

Drugs—Cont'd

- diuretic, in medical management of ascites in cirrhosis of liver (Díes et al.), 28
- and fetus (Friend), 141
- gastrointestinal anticholinergic (Friend), 559
- new information on, 133, 263, 403, 552, 686, 807
- physician's legal responsibility in clinical testing (Hatry), 4
- response to, heredity and, pharmacogenetics (Kalow) (B. rev.), 408
- seminar on clinical evaluation, 255, 371, 531, 542
- steroid (Applezweig) (B. rev.), 279
- for travelers (Hoskins), 673
- used in labor, effects on fetus and newborn (Moya and Thorndike), 628
- Dysfunction, hepatic, nitrofurantoin in patients with (Strauss and Jawetz), 297
- Dyspnea, Monday, in byssinosis, prevention of: controlled trial with antihistamine drug (Bouhuys), 311
